

Cowboy Moving & Storage, Inc.

Serving Colorado

Whatever you have over there, I urge you to start exporting it to other industries. ...Use me as a reference anywhere, anytime."
– Larry B.

...Such good employees speak highly of your company. I will recommend you to friends."
– Wilma C.

Commercial Moves ...

Cowboy Moving & Storage, Inc.

"The Recommended Mover"

Cowboy Moving & Storage, Inc. has been serving Colorado since 1968. The company is family owned and operated and has years of experience in providing quality moving services - *there is a definite difference between the competition and us*. When you call for a quote or to schedule a move, you will get personalized service from knowledgeable moving professionals.

Working with Building Management

From all the years of providing moving services in the Denver area, we have come to know office buildings in the metro area and the requirements of Building Managers. In many cases, we are ***"The Recommended Mover"*** for an office building, which is a true testament to our high quality and caring services. We have earned this recommendation by respecting and adhering to Building Managers' moving requirements. We understand that office buildings have other tenants and also special interior features that need to be respected and protected along with serving our commercial clients' moving needs.

Cowboy Moving & Storage, Inc. has complete professional moving equipment from 4-wheel dollies, special steel dollies, library carts, spider cranes, building protection supplies including masonite floor protection, plastic carpet film for stairs, and 4' foam wall protection. Along with this is our policy of doing the move the right way. We load all items on 4-wheel dollies and they stay on those dollies for the entire trip. We also have special steel dollies with straps so we can move your lateral filing cabinets without having to be emptied, leaving access right up to your moving day.

We have specialists for commercial moves that can often quote small office moves over the phone. In the process of the phone interview, we may determine that we need to see the actual office and meet with you and the building management. If we do an on-location bid we have portable lap top systems with portable printers where we can enter all your moving information on-site and print your estimate on location. Our on-site estimates are at no charge.
